Introduction to Management Science, 3e, offers a unique model approach and integrates the use of Excel.

Through this approach students are better able to grasp the essential concepts covered in the course and see their utility. Each chapter includes a case study that is meant to show the students a real and interesting application of the topics addressed in that chapter.

These cases and related applications cuts across all functional areas of business and show how management science techniques apply in the business environment.

This introduction to the often mathematically rigorous techniques and applications of management science is designed to make the subject accessible for students with no mathematical background or skills. It focuses on management science - not only as a collection of techniques and processes, but as a philosophy and method for approaching problems in a logical manner - as skill that is applicable across disciplines and endeavours, in all types of jobs and organizations. The author's perspective is contemporary, his approach hands-on, and his pedagogy abundant, supportive, and user-friendly for students and instructors alike.

Minstens een derde van de mensen die we kennen is introvert. Dat zijn diegenen die de voorkeur geven aan luisteren boven praten; die nieuwe dingen uitvinden en creëren maar liever niet hun eigen ideeën pitchen.

Introverte mensen hebben het moeilijk in een concurrentiemaatschappij waarin extravertie als de norm beschouwd wordt. Stil behelst een vurig pleidooi vóór introversie, gebaseerd op grondig onderzoek en uit het leven gegrepen verhalen van echte mensen onder wie de auteur zelf. Susan Cain laat zien hoe introverten in onze maatschappij stelselmatig onderschat worden en toont haarscherp de voordelen aan van stil zijn in een wereld vol lawaai.
